

Circular vehicles need the whole value chain.

Meet it in Dresden.

24–25 November 2026 · Gläserne Manufaktur

ON STAGE

Škoda · Volkswagen · Toyota · Benteler · Continental

Swipe →

DAY 1 • TUESDAY, 24 NOVEMBER

The OEM perspective

Hear first-hand how OEMs approach circularity – and align your strategy accordingly.

KEYNOTES

Škoda • Volkswagen

PANEL DISCUSSION

Škoda • Volkswagen • Toyota

ESPECIALLY RELEVANT FOR

Suppliers across all tiers who want to align their strategy with OEM circularity goals

DAY 2 • WEDNESDAY, 25 NOVEMBER

The supply chain perspective

Where suppliers and OEMs align on circular solutions.

KEYNOTES

Benteler • ACOD

PANEL DISCUSSION

Benteler • Continental • further suppliers

ESPECIALLY RELEVANT FOR

OEMs, material producers, recyclers and researchers looking for partners along the chain

8 thematic tracks

Over 30 technical contributions from industry and research

● Vehicle & components ● Materials ● Digital & systemic enablers

1 Circular Vehicle Architectures
Modular design, disassembly, remanufacturing

2 Circular Components
Eco-design, joining, material substitution

3 Steel
Recycling and secondary steel in vehicle structures

4 Recycled Aluminium & Lightweight Alloys
Secondary alloys, scrap management, closed loops

5 Composites & Polymers
Recycled and bio-based materials, FRP recycling

6 Tyres & Rubber
Retreading, pyrolysis, recycled content

7 Digital Methods for Circular Economy
Automated LCA, Digital Product Passports

8 Circular Vehicle Ecosystems
ELV recycling, critical materials, reverse logistics

More than talks

Innovation Hub

Visit the exhibition stands – or present your own products and solutions.

Networking & matchmaking

Meet potential partners and initiate joint projects for the 2027 funding calls.

ORGANISED WITHIN THE HORIZON EUROPE PROJECT

28 partners
from 13 countries

Register now

Early bird **€450** until 15 October 2026
then €600
